

ANOTHER FORT

Captured by the Japanese at Port Arthur.

NO FIGHTING AT MUKDEN.

Report from General Oku Shows that Kuropatkin was Forced to Retreat from Liao Yang.

EXPECT BATTLE AT FUSHAN.

Mukden, Sept. 21st, (delayed in transmission).—A battle is hourly expected to occur in the vicinity of Fushan 33 miles east of here. At present all is quiet. The weather is turning cold.

St. Petersburg, Sept. 22nd.—Gen. Kuropatkin telegraphed under yesterday's date that the Japs continue their attempts to turn the Russian left but without success. According to the latest information received by the war office, Field Marshall Oyama's advance forces are still 30 miles south and southeast of Fushan. The war office does not expect a battle at Fushan after a series of rearguard engagements.

Tsingtau, Sept. 22nd.—Capt. Matosevitch who was chief of the late Admiral Withof's staff has recovered sufficiently to leave the hospital, and the other wounded Russians here are convalescent. The majority of the officers of the Russian battleship Czarievitch and three torpedo boat destroyers dismantled here, have left their ships and are living at hotels.

JAPS HAVE GAINED GREAT ADVANTAGE.

Tokio, Sept. 22nd.—While official confirmation is lacking it seems that the Japs possess a fort on the height westward of Izham which they carried by desperate assaults and have since resisted all attempts at recapture by the Russians. Both these heights overlook Port Arthur, thus offering excellent gun positions which materially weaken Russian defences.

London, Sept. 23rd.—While the Japanese are reported advancing upon Mukden there has been no fighting worthy of note between the opposing armies under Gen. Kuropatkin and Marshall Oyama. The latter according to military critics at St. Petersburg is likely to pursue tactics different from those essayed by Japanese at Liao Yang and it is expected that an attack will come upon the Russian front and flanks rather than in the form of an enveloping movement.

Definite information from Port Arthur is very meagre, no conclusive or minor successes there are reported. Russian spies allege that a considerable force has been detached from the Japanese army which captured Liao Yang and has been sent back to aid in the operations against Port Arthur. The formation of seven Russian rifle brigades for service in the far east has been ordered.

KUROPATKIN WAS DEFEATED.

Tokio, Sept. 22nd.—Gen. Oku has written an extended report of the operations preceding the capture of Liao Yang and expressed the opinion at Gen. Kuropatkin had determined to hold Liao Yang, his plan being first to attack and defeat Gen. Kuropatkin and then to assail the Japanese centre and left armies. Oku declared that the stubborn resistance of the Russians at Liao Yang proves that their retreat was not prearranged.

Las Palmas, Canary Islands, Sept. 32nd.—The Russian cruiser Terek, which has been stopping British vessels in the vicinity of Gibraltar commenced coaling here yesterday but on orders received to-day from Madrid she was stopped and was ordered to leave here during the morning. Her commander replied that he was unable to put to sea owing to the Terek's engines needing repairs. She was, however, forbidden to take on board any more coal, water or stores.

CANADIAN NORTHERN

GRADING OPERATIONS

Engineer McFarlane expects that the Grade will reach Edmonton early next summer

A. G. McFarlane, Canadian Northern railway engineer arrived in the city Wednesday from Lloydminster. He is engaged in revising the location line from Battleford to Edmonton. At present he and party are working about forty miles west of Lloydminster.

Mr. McFarlane states that the past season with the exception of a few days has been ideal for grading operations and the result is that splendid progress has been made. There have been plenty of teams for the supply of men available. Operations were rushed with the utmost dispatch so as to get the grade as far west as possible this fall. The main portion of the grading outfits are working between Battleford and Lloydminster and this whole stretch of grade will be completed except the approaches to the bridge at Battleford in three weeks. Very few particularly difficult sections have been encountered.

When asked how far west grading would be completed this fall Mr. McFarlane stated that it would be practically completed to a point about eighty miles west of Lloydminster with a probability that some outfits would be working even nearer Vegreville. It depends greatly on whether the contractors now working east of Lloydminster will move west on the completion of their present contracts, or will break up their outfits for this season.

In answer to a question of when the grade would reach Edmonton from the east Mr. McFarlane said: "Two months favorable weather next spring will easy run us into Edmonton." This means that if next spring will be favorable for grading operations, the grade in a continuous line from Winnipeg will reach Edmonton early in August.

Mr. McFarlane returned to-day to his survey party west of Lloydminster. He expects to finish his revision of the location line to Edmonton in about three weeks.

M. H. McLeod, chief engineer of the Canadian Northern Railway Company is expected to arrive in Edmonton in a few days.

Killed on the Track.

Blairmore Times, Sept. 17th

The engineer on a west-bound freight train on Sunday evening espied a man lying on the track below Bellevue. He applied the emergency brakes and did everything in his power to bring the train to a stop in time to save running over the man, but without avail. The man was picked up by the train crew who found that both of his legs had been severed below the knees. He was brought into Frank, but died from the shock and loss of blood. It was found that the victim of this accident was Jack Henry, an old timer in this section and at one time in charge of the saw-mill at the Peigan Agency. The authorities, after investigating did not consider a coroner's inquest necessary and so the deceased was buried by the section men here Tuesday.

THE MARKETS

Butter—Tub butter brings from 12 1-2 to 15 cents a pound; print butter from 15 to 18 cents. 20 cents a pound is paid by special customers for particularly choice prints.

Pork—There is a good demand for 4 1-2 cents a pound.

CURING THE FILLER

THE Pharaoh filler I select in Manicaragua—Province of Santa Clara, Cuba, is generally harvested in February.

The plants are cut down at daybreak—allowed to remain until eleven o'clock in the morning—until they are properly wilted—then taken to curing houses for drying.

After they are thoroughly dried they are allowed to become moist through atmospheric humidity and then made into "hands." Four of these hands constitute a carat, eighty carats make a bale.

After allowing it to age for three full years, in order to develop its superb fragrance and aroma, I make it up into "Pharaoh."

That's why there is a taste and odor of genuine tobacco in my Pharaoh Cigar.

Ross Bros.,
Limited.This is the time to look after
Your Stoves

Ross Bros., Limited have a very fine assortment of Heating Stoves, either for wood or coal, or for both, their stock now is large and still quite complete and if you are going to buy a new stove it would be better to do so early and thus have a better assortment to choose from

They have the newest things in stove trimmings and furniture and you can make no mistake in buying from them, their tinmiths are first class and any work done by them is sure to please, so when you want a stove or any work done in connection with your stoves, go to Ross Bros., Limited

In Sporting Goods

Their stock is still well assorted and buying in such large quantities as they do, enables them to give you more for your money and better goods than you can get elsewhere

They have an immense stock of shot guns and rifles and you will be surprised to know how cheap they are.

In Their Plumbing and Steam
Fitting Department

They employ only the best mechanics and their work and material is fully guaranteed. If you need anything in that line don't put it off too long, winter is getting very close and good plumbing work is done much better and cheaper in mild weather.

Ross Bros.
Ltd.

ALBERTA COLLEGE

BUILDING COMPLETED

The Building Is Commodious and Has
Been Especially Well Constructed
Throughout

The new Alberta College building on First street south of Jasper, has been completed throughout and now stands ready to receive the furniture. It is a splendid frame building, neatly pointed, and consisting of three storeys and basement. The basement can scarcely be called as such, as it is well lighted and as thoroughly finished. The building is 42 by 62 feet and will cost when furnished about \$17,000. During the day large and high windows afford plenty of good light, and first-class electric lighting arrangements have been installed. The building will be heated by steam, the boiler for which is located in the basement. The third floor is for men, and the second for girls. Lavatories, wash room, bath room and wardrobe have been installed in each floor. Two stairs lead from the ground floor, on to the second floor and the other to the third floor. In this way there is no communication between the second and third storeys. The plumbing arrangements in the building are very complete and satisfactory. The main entrance is on the west side of the building facing First street and there is a large verandah on the front of the building. The ventilation system throughout the whole building is especially good.

From the ground floor stairways lead to the basement which is handsomely fitted up. In the south-west corner of the building is the dining room 23 by 23 feet, with a seating accommodation for fifty-five. Back of the dining room is a pantry, and back of this again is a large sized kitchen. Leading off this is a store room, and adjoining it and opening into a hallway are three bedrooms for the help. The boiler room is in the south-east part of the basement. It is especially neat and compact, and of sufficient capacity to heat a larger building than the present college. Off the boiler room is a fuel room where coal and wood are stored. Adjoining this is the laundry room. All these rooms open off a good wide hallway, affording ample accommodation. All the rooms in the basement have a four foot wainscoting and a floor of quarter cut fir.

The ground floor is given over entirely to class-rooms, of which there are six. Each of the rooms are high, bright and airy, and are provided with good blackboard space. One room, 18 by 16 feet, is especially designed for music, and it will also contain the library. There are double doors to this room, and the walls have been decorated. Adjoining this is a long and narrow room, which will be used for typewriter instruction and exercise. At the end of the hallway leading from the main entrance of the building is the principal's private office. In the south-west part of the second floor are two classrooms which are connected by folding doors. This is to enable the rooms to be turned into an assembly room for special occasions. This will give an assembly room 23 by 36 feet, with seating capacity for one hundred and twenty-five people. The size of the classrooms are 18 by 16 feet.

The second floor, which is connected with the ground floor by a stairway, is to be occupied by girls only. There are ten bedrooms, each 10 by 17 feet, in size, all opening on to a large hallway, which will be used as an assembly room. There is a convenient recess where a piano will be placed. Each room will be furnished with two single beds, study table, book case, dresser, and wardrobe. According to this arrangement there will be accommodation for twenty res-

ident girls. Opening off the second floor is a balcony from which a splendid view can be obtained of the river valley. The bathrooms on both this and the third storey are fitted with both hot and cold water attachments. The girls' rooms are so arranged as to have the sunshine enter each one of them.

A stairway leads from the ground floor direct to the third storey, which will be occupied exclusively by the male students. There are eleven rooms, ten of which are 10 by 17, and one smaller. This floor is fitted similarly to the second storey. Steam radiators are in every room. The bedrooms of both flats have all been constructed on a physiological basis, there being one hundred feet in excess of the minimum amount of breathing space required.

The whole building is exceedingly well fitted up and the rooms are all commodious and cheerful.

Boys' Shoes

Does it pay to pay \$2.50 or \$3.00
for a pair of "Slater" boys' shoes?
Yes, because you get full wear
value out of them—at least the
boy does.

"Slater" boys' shoes are made of
best selected leather in uppers and
soles—soles are extra solid—being
Goodyear welted they bend without
breaking—also they do not injure
the growing tender foot—no tacks,
stitches or lumps to bring corns,
bunions or callosities.

Yes, sir, the "Slater" boys' shoe
is a good investment for the boy's
dad. Try one pair and you will
know it.

"Slater Shoe"

Made in Canada 40 Years.
For Men, \$4.00 and \$5.00.
For Women, \$3.50 and \$5.00.
For Boys, \$2.50 to \$3.50.
Sold in 15 "Slater" Stores and 200 Agencies.
Save your Shoes by Using "Slater" Shoe Polish.

to either depot. Orders for
bus should be sent one hour be-
fore time. Baggage attended to
by phoning 189.

W. LECLERC, PROP.

Why the "Slater Shoe" Is now a Union Shoe.

The "Slater Shoe" factory has always paid the highest wages in Canada, because the class of men employed could demand such wages in respect of Union backing.

Also, the "Slater Shoe" factory has always been up to Union standards in lighting, ventilation and sanitary arrangements.

But even these highly favorable conditions cannot secure from inefficiently organized labor complete co-operation between employer and employee.

So the "Slater Shoe" makers decided to make their factory a Union factory in name as well as in actuality.

Henceforward all "Slater Shoes" will bear the stamp of the Boot and Shoe Workers' Union with the factory Number 350.

(This number will also identify the shoe bearing it as the genuine "Slater Shoe," as no other makers have the right to use it).

This Union Stamp stands for co-operation of employer and employee, for mutual good understanding, for immunity from strikes and lock-outs, for the principle of arbitration, for a continuous supply of first-class help, for uniformity of workmanship, for fair conditions all round.

Reduces cost by increasing producing efficiency, by reducing number of spoiled pairs of shoes, by its greater uniformity of workmanship, by the more thorough organization of factory.

It makes better shoes.

Don't forget the "Slater Shoe" factory, Number 350—three fifty—same as the "Slater" three fifty shoe.

When you see that number you will know you have a genuine Goodyear Welted Union-made

Slater Shoe

TELEGRAPHIC

GOVERNOR GENERAL

IN WINNIPEG TODAY

Will Present Colors to the Royal Canadian Mounted Rifles. Luncheon at Fort Garry.

Bulletin Special Dispatch.

Winnipeg, Sept. 23rd.—Winnipeg is en fête to-day in honor of the regal party which arrived here at an early hour this morning from the West. Sharply at 10 a.m. the escort of mounted police arrived at the station. Lord and Lady Minto drove up to the city hall where Mayor Sharpe presented an address, to which the Governor-General made a suitable reply. Public school cadet corps then marched by, after which the vice-regal party entertained at luncheon by the Hudson's Bay Co. in that historical spot.

On their return His Excellency will present colors to the Royal Canadian Mounted rifles, subsequently holding a reception in the legislative chamber where all loyal citizens will attend. The party return to the car at 10 p.m., leaving for the east in the morning.

THROWN FROM A WHEEL

DR. WILLS OF CALGARY

Succumbs to Injuries Received by being Thrown from a Bicycle.

Bulletin Special Dispatch.

Winnipeg, Sept. 22.—Dr. Wills died to-day as the result of a fall from a bicycle. He was a graduate of the London College of Physicians and Surgeons, and was well known among Canadian medical men. Death was due to concussion of the brain. He lingered 48 hours.

The deceased was found at the foot of a steep hill 300 yds from his home at 8.30 Wednesday night by Thomas Kitt, an employee of his sanitarium. He was lying on his back at the side of the trail. His bicycle was several feet away.

Dr. Wills was unconscious when discovered, and remained in a comatose condition all night, and until 10.30 the next morning. At that time he regained consciousness for half a minute, spoke to Mrs. Wills, and became insensible.

During the night the condition of the patient became so alarming that artificial respiration was necessary to preserve life.

The cause of the accident is very obscure. Dr. Wills left his home shortly after noon to come down to his office. It is believed he attempted to ride down the steep hill on his wheel, only to lose control of the machine and to be violently thrown to the ground at the bottom. He was found at a sharp curve just where such an accident would have been the probable result of the ride. If he was thrown at that time the victim had been lying where found for eight hours.

EDISON

Mr. West, of Edison, settlement, was in town on Thursday. He reports all the grain cut in this the newest and most northerly of the settlements outlying from Edmonton. There was very little wheat, as this is the first year's crop, but what was is good. There was no frost to do any damage so far.

Vegetables are a very fine crop. An interesting point in connection with the Edison settlement is that it is

Winnipeg, Sept. 23

Lady Curzon is seriously ill at Walmor Castle.

F. W. Thompson has donated \$500 to the Winnipeg General Hospital.

Geo. S. Lyons, Toronto golfer, is in the finals at the St. Louis tournament.

The Winnipeg Board of Trade secured winter stops at western points for C.P.R. train.

The reduction in C.P.R. transcontinental rates was discussed by officials of other roads.

Sir Wilfrid Laurier was principal speaker at a banquet of the Manufacturers' Association.

The Minister of Finance makes a statement regarding the appointment of Commissioner Wade.

The rush of the crop movement is on in earnest, \$1 per bushel for wheat was paid at Hartney.

Yesterday was the coldest September day in New York since the weather bureau was established.

George Piper, whose mangled body was found on the C.P.R. at Rennie is believed to have been murdered.

Great interest is manifested in the reception of Lord and Lady Minto in Winnipeg to-day.

Conductor Irwin and engineer Johnston, charged with being responsible for the Sinaluta wreck, have been committed for trial. Their bail was fixed at \$15,000 for each.

MISSING MAN

BELIEVED TO BE DROWNED

His clothes have been found on the River bank and no trace of him been seen

Andrew, Sept. 23rd.—Jack Archibald arrived at Logy's camp at Paradis crossing on Thursday, 15th on a raft from Edmonton. He took sick and had to be taken off the raft. On Friday he became delirious and got away from the camp into the bush. He was not found until Sunday afternoon. On Monday, between seven a.m. and 3 p.m., he said he was going for a short walk. He did not return to camp and a search party was made for him, and on Tuesday his clothing including his underclothes, were found in a stake on the river bank close to the water. No trace of him has been found since. It is supposed that during a fit of insanity he attempted to swim the river and was drowned. Con. Chantler left Andrew yesterday morning to make investigation.

On the height of land between the Saskatchewan and Athabasca rivers. The greater part of it is on the slope towards the Pembina. Although a long distance from town and market now, the settlers are full of confidence for the future, as the Canadian Northern Railway has a line surveyed through the settlement from Edmonton on the way to the Athabasca Landing.

Mrs. J. Irwin will serve tea in the afternoon and high tea will be served at 6.30 by the lady members.

Distribution of prizes will be made on Saturday, October 1st, when the September button will be played.

Fosters Weather Forecast

Washington, D.C. Sept. 20.—Last bulletin gave forecast of disturbances to cross the continent Sept. 14 to 18, warm wave 13 to 17, cool wave 16 to 26. Next disturbance will reach Pacific coast about 19, cross west to Rockies by close of 20 great central valleys 21 to 23 eastern states 24. Warm wave will cross west of the Rockies about 19, great central valleys, 21, eastern states 23. Cool wave will cross west of the Rockies about 22, great central valleys, 24, eastern states 26.

Storms of the first week of Sept. expended their force in a tropical hurricane which relieved the tension on the continent, but clustering around Sept. 23, the planetary influences will be so great as to cause general and severe storms on land and sea. By clustering around I mean within two days. One continuous series of severe storms will cover the period between 17 to 25, with falls clustering about 19 and a great intensity about date of this bulletin and 23. These predictions are not for the purpose of sensation, but are legitimate warnings to put people on guard. Great storms have occurred during this and last month, and greater storms will occur during the balance of this and next month.

Calgary Debentures

Alberta:

The \$70,000 worth of debentures yielding 4 1-2 per cent., which the school board of Calgary have been endeavoring to sell have at length been disposed of to a Toronto firm.

They were first offered slightly below par but no market, after considerable efforts, could be found for them either in Canada or Britain.

The board put them up on the market at 97, at which price they are being taken up, making the interest payable at 4.68 per cent.

These debentures are being raised to pay for the building and equipment of the new central school.

The Canadian Northwest Homestead Regulations

Any even numbered section of Dominion Lands in Manitoba or the Northwest Territories, excepting 8 and 26, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age to the extent of one quarter section, of 160 acres, more or less.

ENTRY.—Entry may be made per district in which the land to be taken is situated, or, if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa, the Commissioner of Immigration, Winnipeg, or the local agent of the district in which the land is situated, receive authority for some one to make entry for him. A fee of \$10.00 is charged for a homestead entry.

HOMESTEAD DUTIES.—A settler who has been granted an entry for a homestead is required by the provisions of the Dominion Lands Act and the amendments thereto, to perform the conditions connected therewith, under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

(2) If the father (or mother, if the father is deceased) of any person who is eligible to make a homestead entry under the provisions of this Act, reside upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3) If a settler has obtained a patent for his homestead, or a certificate for the issue of such patent, countersigned in the manner prescribed by this Act, and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

(4) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon said land.

The term "vicinity" used above is meant to indicate the same township or an adjoining or cornering township.

A settler who avails himself of the provisions of Clauses 2, 3 or 4, must or substitute 20 head of stock, with buildings for their accommodation, cultivate 30 acres of his homestead, and have besides 80 acres sub-stantiated.

The privilege of a second entry is restricted by law to those settlers who have completed the duties upon their first homesteads to entitle them to patent on or before the 2nd June, 1899.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled, and the land may be again thrown open for entry. Application for patent should be made at the end of three years, before the local agent, sub-agent, or Homestead Inspector. Before making application for patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands at Ottawa, of his intention to do so.

Information.—Newly arrived immigrants will receive at the Immigration Office, in Winnipeg, or at any Dominion Lands Office, in Manitoba or the Northwest Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing land to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa, the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Lands Agents in Manitoba or the Northwest Territories.

JAMES A. SMART,
Deputy Minister of the Interior,
N.B.—In addition to Free Grant Lands to which the regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

You know the action of fruit.

Apples, on the kidneys—oranges, for stomach and appetite—prunes and figs for the bowels. But—fresh fruit won't CURE these organs when diseased: they can only HELP to keep them well.

Fruit-a-tives
or Fruit Liver Tablets

can—and DO—cure. They are fruit juices—but changed chemically and medicinally, by our secret process. So remarkable is this conversion, that "Fruit-a-tives" cure all Stomach, Liver, Kidney and Skin Diseases, where the fresh fruit would have no effect on the trouble. 50c. a box. At all druggists.

LONDON, PARIS, NEW YORK AND EDMONTON

LOCAL

—Train on time.
 —A harvest festival will be held in Poplar Lake school house this evening.
 —John Ross & Co.'s scows, laden with oats, for the railway works, arrived at Lloydminster Landing safely.
 —A. E. McFarlane, Can. Northern engineer, left this morning for his survey camp forty miles west of Lloydminster.
 —M. H. McLeod, chief engineer of the Canadian Northern Railway Company is expected to arrive in Edmonton within a few days.
 —Mayor Short and N. D. Beck go to Regina to-morrow to represent Edmonton during the consideration by the Territorial Assembly of the Edmonton city charter.

We have been compelled to hold over a lengthy report of the third day's proceedings in the Edmonton and Strathcona fall rifle matches. The results will appear in to-morrow's Bulletin.

—Owing to the weather the company have decided to produce the military drama, the "Confederate Spy" in Robertson's Hall instead of the Rink Theatre. The next rehearsal of the play will be in Robertson's Hall on Monday evening commencing at 7.45.

—The following is an extract from a speech made by J. N. Lake, of Toronto, at the cricketers' concert at Saskatoon recently: "I am of the opinion that the three really large cities of Manitoba and the Territories will be Winnipeg, which is really great already, and by general consent Edmonton comes next, and the third you will say is Saskatoon. Well, it may be. In my opinion the only competitor you have seems to be Battleford, but you are so far ahead now that if you keep up the pace you will still lead."

PERSONALS

D. J. McNamara went to Wetaskiwin this morning.
 Rev. Father Leduc went to Wetaskiwin this morning.
 J. T. Mitchell, merchant, of Paken, is in town to-day.
 F. G. Haldane arrived in Edmonton last night from a visit to Montreal and other eastern points.
 W. H. Cooper and J. B. Mercer went to Wetaskiwin this morning on a chicken shooting expedition.
 Fred Daggett, nephew of W. D. Parsons, arrived last night from Central Alberta, with a view to locating in northern Alberta.
 J. S. Core, D. S. S., left to-day for his survey work in Township 60, range 16, west 7th meridian, the township northeast of Paken.
 Mr. and Mrs. J. H. Garriep returned last night from an extended visit to Ontario and Quebec cities. Mr. Garriep was a delegate to the C. M. B. A. convention.

SPRUCE GROVE

By phone.
 A. D. Thak has been gazetted magistrate, a much needed appointment.
 All grain is cut and crops are good. Wheat is well filled and an excellent yield and sample. Barley is also very good. Some of the late oats were caught by frosts but the yield will be a good average.
 Three new threshers are coming to Spruce Grove and Stony Plain this fall costing from two and a half to three and a half thousand dollars each.
 An Edmonton shooting party, six in number, are having excellent sport on the plain.

THE WEATHER

September 23rd.

Max., 49
 Min., 33
 Noon, 36
 Bar., 30.6.

Yesterday's cold weather terminated last night in a light fall of snow and rain. This morning again some snow fell, but scarcely enough to whiten the ground. It has been wet and disagreeable all day to-day, and the streets and sidewalks are very sloppy. This is the storm that old timers predict for this season of the year, maintaining that to ensure a good fall we should receive just such disagreeable snowy weather at this time. The snow has the effect of clearing the air and is almost always followed by a long spell of especially good weather.

Winnipeg, Sept. 22.—the weather yesterday was quite cool and rainy in Alberta, and mild and rainy in Western Assiniboia, cloudy and mild in Manitoba. There has not been much variation in temperature.

The forecast is—Manitoba and the Qu'Appelle valley, cloudy and cool; few showers; Saskatchewan, fair, with moderate temperature; Alberta a few showers to-day, fair to-morrow with continued cool weather.

The following temperatures were recorded last night—

Edmonton, 48, 32
 Calgary, 44, 34
 Prince Albert, 62, 38.
 Battleford, 64, 40
 Medicine Hat, 70, 44
 Swift Current, 70, 38
 Qu'Appelle, 64, 46.
 Minnedosa, 56, 50
 Winnipeg, 54, 50
 Port Arthur, 54, 46
 Broudiview, 65, 45
 Indian Head, 66, 42
 Moosomin, 55, 47
 Regina, 64, 39
 Virden, 58, 38
 Brandon, 58, 50
 Portage la Prairie, 54, 46
 Morden, 53, 45
 Cypress River, 58, 49
 Carman, 59, 47
 Pipestone, 60, 46
 Estevan, 68, 35
 Red Deer, 44, 33
